

KEL-EMC-PF cable assembly bracket

for mounting individual shield clamps

The EMC bracket combined with the [matching PFS EMC shield clamp](#) is perfect in conjunction with the [KEL cable entry frame](#) for alleviating interferences due to shields.

The EMC clamp is assembled inside the control panel. For this process the fixing screws for the assembly of the KEL frame on the panel are used. A female screw thread M5 is already integrated in the KEL-EMC-PF bracket.

The KDR-EMC-PFM type can be mounted on icotek enclosure base plates with [slide frames KDR-ESR-VX25](#).

Depending on the cable diameter, the corresponding PFS shield clamp can be snapped onto the EMC bracket.
