

QT-DT | Multi-membrane cable grommets for QUICK systems

for cable diameters 1 - 12.2 mm / IP54

The QT-DT cable grommets can be used anywhere where a large number of electrical, pneumatic or hydraulic lines must be routed and sealed with IP54. By using the QT-DT grommets, the cable density can be significantly increased.

QT-DT grommets are compatible with split icotek cable entry frames [KEL-QUICK](#) and [KEL-QTA](#). The routing of cables with and without preassembled connectors in one cable entry frame can thus be easily combined.

The QT-DT grommets are also perfectly suitable for the assembly of subsequently terminated cable harnesses.

[ST-B Plugs](#) can be used for sealing pierced membranes if cables have been removed.
