

□□ □□ □ □□ □□□ □□□□, M32-M75, IP54

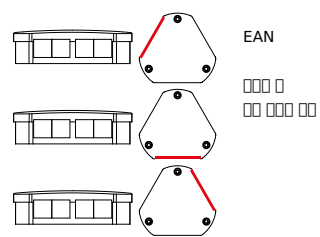

길이 1~15mm인 EN 62444에 준하는 재료, 두께 0.5mm 이하의 재료. 재료의 두께는 재료의 두께(두께)에 따라 달라진다.
가 두께 0.5mm 이하의 재료.

A diagram of a hexagonal plate with three circular holes. The holes are located at the top, bottom-left, and bottom-right positions. The boundary conditions are indicated by red arrows: the top hole has a counter-clockwise rotation arrow; the top and bottom edges have outward normal arrows; the left and right edges have shear arrows pointing outwards; and the bottom edge has two vertical arrows pointing inwards.
