EMC shield clamps are used, where the shield of cables must be connected to the earth potential. They are easy to use and effective in earthing single cable shields.

When using types with integrated strain relief cables can be fixed via the cable jacket using cable ties. Thus strain relief in accordance with EN 62444 is achieved. We also offer EMC shield clamps with double strain relief function acc. to PROFINET installation guidelines.

Due to its special design the clamping ranges of the MSKL are very large while the dimensions are comparatively small. (Example: MSKL 3-12, assembled with a 12 mm cable shield: width 26.25 mm).

The very slim shape of the PFS|SCL is perfect for applications with limited space.

The shield clamps are mounted by snapping them onto a 10 × 3 mm bus bar.

## Specificaties

|               |                                                                                                         |
|---------------|---------------------------------------------------------------------------------------------------------|
| Materiaal     | Schermklem: Verenstaal, verzinkt<br>Klikbevestigingsvoet: Verenstaal<br>Schermklem: Plaatstaal verzinkt |
| Eigenschappen | trillingsbestendig                                                                                      |
| Montage type  | Snap-in                                                                                                 |

## Voordelen

- Gedeeltelijk met geïntegreerde trekontlasting
- Groot contactoppervlak
- Afschermingscontact en trekontlasting gescheiden
- Eenvoudige assemblage zonder gereedschap
- Het veerontwerp vereist geen aanpassingen en houdt permanent contact met de kabelafscherming
- Ontworpen voor toepassingen met hoge dichtheid
- Schok- en trillingsbestendig, onderhoudsvrij
- Geïntegreerde dubbele trekontlastingsfunctie conform de PROFINET-installatierichtlijnen
