The detectable cables ties and holders for cable ties are particularly suitable for pharmaceutical applications and for the food industry. The cable ties can be used to close packagings and transport containers.

The detectable cable ties and holders are used to install cables in the production systems. Cable ties are proven aids for the economical bundling and fastening of cables, cable harnesses, pipes and hoses. At the same time, the cable ties achieve a very high strain relief.

The holder is mounted using a screw assembly or an adhesive surface.

## Specificaties

### Vlam klasse

### Temperatuur

-40 C° tot 60 C°

### Eigenschappen

olie- en schimmelbestendig, hoge chemische bestendigheid, halogeenvrij, zonder siliconen

## Voordelen

## Producttypes en maten
